2

**Empire State Building, New York**

*Over 1860 square feet of walkway and M&E areas have been seamlessly waterproofed with Polyroof liquid systems.*

# POLYROOF

ADVANCED LIQUID ROOFING

## WE ARE THE LIQUID ROOFING EXPERTS

For over 30 years, Polyroof have been developing and manufacturing cold-applied liquid roofing systems that continue to set the standard for waterproof performance.

With their versatility and superior performance, we are confident that there is no alternative that can protect a roof better than our liquid systems. That's why you won't find us supplying felt, single-ply or rubber. Choosing Polyroof's seamless liquid roofing solutions is placing your flat roof project into the hands of the experts.

## OUR CLIENTS ARE OUR FOCUS

Delivering the highest quality products and services is at the heart of everything we do at Polyroof.

No matter the size or location of a project, we strive to exceed our clients' expectations at each opportunity.

By only supplying systems to our network of approved installers we can ensure that our clients receive a superior service every time. For lasting peace of mind, all Polyroof systems are covered by our trusted Accredited System Guarantees for up to 25 years.

### **Esplanade, St Helier**

*This new office development in the heart of Jersey's capital was waterproofed with Polyroof systems within various warm and inverted roof designs.*

# INNOVATIVE FLAT

*“We are delighted with the versatility and performance of Polyroof systems. We are never limited in our designing - no matter how complex the roof, Polyroof are able to provide a waterproofing solution.”*

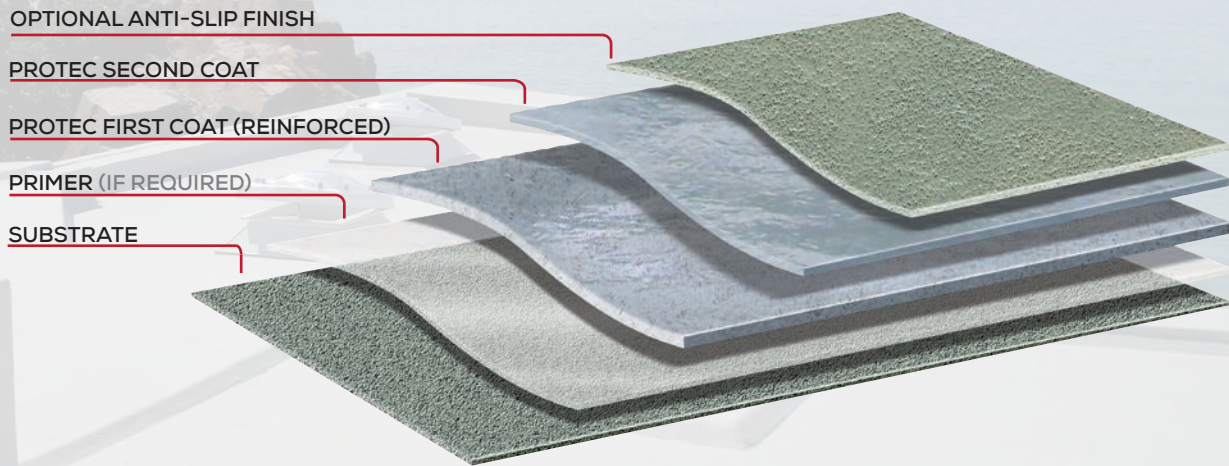

**SENIOR SURVEYOR AT DUMFRIES & GALLOWAY COUNCIL**

# ROOF SOLUTIONS

## TRULY SEAMLESS WATERPROOFING

No matter the size, shape or complexity of a roof, Polyroof's liquid systems will form a seamless waterproof membrane across the entire roof area. The finished surface is tough, flexible and impervious to water. With proven lifespans in excess of 25 years, Polyroof systems are the number one choice for all flat roof and balcony applications.

## FEATURES

- Highly flexible yet tough membrane that is ideal for any size or shaped roof
- Rapidcure technology for fast, disruption-free installations
- No joints, no seams, no welds – no weak points
- Applied to a wide range of surfaces including existing roof coverings and direct to approved insulation boards
- Cold applied - no flames, no hot works, no fire risk
- Tough and impact resistant finish that can easily accommodate foot traffic
- Key accreditations including BBA, FM and ETA

## KEY APPLICATIONS

- Overlays and full refurbishments
- New build developments
- All types of roof - from completely flat to vertical
- Unique warm roof solutions with high performance insulation
- Balconies, terraces and walkways
- Green roofs and biodiverse roofs
- Simulated metal finishes

# COMPLETE PROJECT

## EXPERT GUIDANCE AT EVERY STAGE OF YOUR PROJECT

Polyroof's reputation has been built on the high level of technical support provided to clients before, during and after every contract. We like to work closely with our clients from the very beginning of a flat roofing project right through to the end. From our experience, this is the best way to guarantee that all aspects of the roof are finished to the superior standards that our clients expect.

The Polyroof Technical Team can carry out site surveys and produce detailed roof specifications, drawings and proposals to ensure every challenge within the project is seamlessly solved.

# SUPPORT SERVICES

“The technical support we receive from Polyroof helps us to meet our clients' expectations every time. We are yet to encounter a challenge or issue on a roof that hasn't been totally solved!”

NICK ROGERS, MANAGING DIRECTOR AT JR FLAT ROOFING (UK) LIMITED

## WHAT WE PROVIDE

We understand that our clients are usually tasked with many responsibilities during a construction or refurbishment project. Flat roofs may mean a great deal to us, but we know our clients have plenty of other things to worry about. This is why we strive to take on board as many of the challenges and issues associated with the flat roof that we can, freeing up our clients to focus their efforts where needed most. The range of services that Polyroof Technical Team offer include:

- Surveys
- Drawings / plans appraisal
- Bespoke specifications
- CAD details
- Thermal calculations
- Cut-to-Falls insulation schemes
- Framework packages
- Contract monitoring & aftercare

# YOUR HUB FOR FLAT ROOFING SOLUTIONS

Whether you're a specifier looking for a state-of-the-art roofing system for a commercial development, or you're simply looking for a long-term solution to a leaking roof, at [www.polyroof.co.uk](http://www.polyroof.co.uk) you will find everything you need. There's a wealth of information that's instantly accessible - without the need for logging in or remembering passwords.
