Decades of experience helping businesses find the right utilities plan

With our range of services, we believe that our customers should have as much time as possible to be able to concentrate on running their business. We're here to support you and improve on all your energy needs that ultimately help you and your business to perform better.

We are experts in this industry, with decades of experience working in energy and utilities management, responding to the changing needs of our customers. Through our excellent supplier relationships, we will ensure we find the most suitable deal for your business, whilst also taking into consideration suppliers, based on your exact needs.

SUPPLIER INDEPENDENT

We work with a wide range of suppliers across the established big six, smaller alternative suppliers and specialists. We are committed to bringing transparency and openness to our negotiations, contracting and renewals processes.

PERSONALISED ONE-TO-ONE SUPPORT

We ensure that each of our customers has a personal relationship with a dedicated energy consultant who will develop the right bespoke solution that best matches your business needs.

A BESPOKE SOLUTION

We work with customers across all business sectors from retail to social care and manufacturing to education. When you procure with Consultiv, the contracting process will be quick, clear and regulatory compliant.

meter points with an aggregated contract volume of more than

~4TWh

of energy

Procurement

Consultiv will negotiate the most suitable electricity, gas, and water prices for your business. We'll help you reduce consumption and manage utilities. Working closely with you to help mitigate rising utility costs, or find the most economical contract for your business.

Optimisation

Our optimisation specialists will work closely alongside you to identify, prioritise and implement a structured programme of projects, that address the gaps in your energy strategy – helping you make substantial long-term savings.

Sustainability

As the UK looks to enhance its environmental credentials and meet its long-term goal of becoming a net zero country, organisations are being asked to play their part. Adhering to the latest regulations and demonstrating a commitment to managing utility consumption effectively.

Water Procurement

Our experts can offer you competitive water procurement options, tailoring your selections to meet the exact needs of your organisation. We can help you say goodbye to billing errors, paper invoices, disconnection notices and more.

Green Energy

We have made a commitment to providing UK businesses with affordable, reliable and clean energy. That's why we can offer electricity and gas products that come from 100% renewable sources – and from UK producers.

Account Management

Personalised account management is at the heart of Consultiv's consultancy service, and we pride ourselves on the swiftness of our communication, efficient query resolution, and the highest standards of customer service. As a Consultiv client, you will benefit from access to a dedicated account management team; two bureau platforms – Consultiv Connect and the Energy Hub; a task tracking system; and a range of service levels set out in our account management matrix.

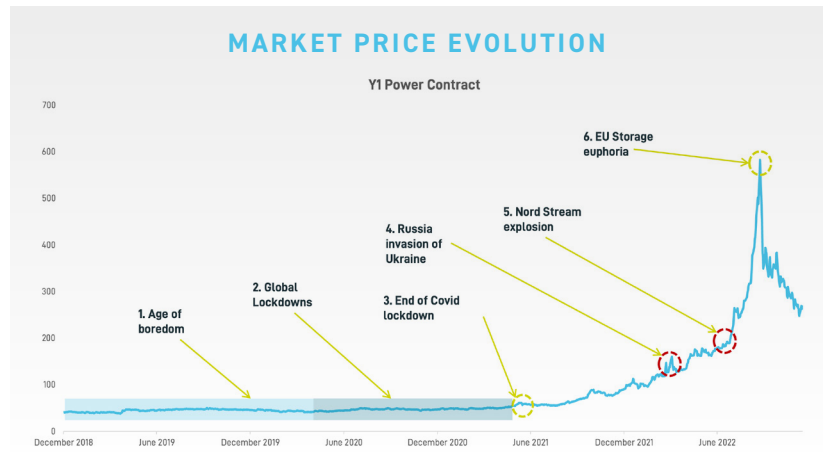

ConsultivConnect

The Energy Crisis

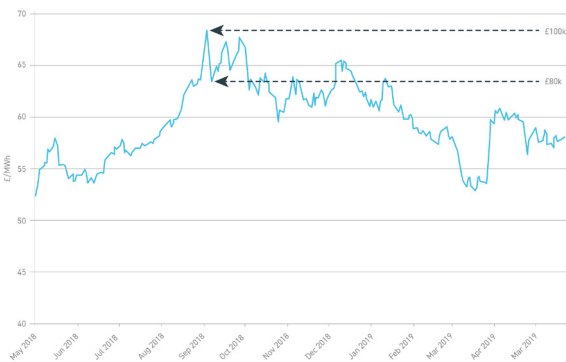

Consultiv provide help to businesses of all sizes and sectors to gain a clearer understanding of what has caused the upheaval in the energy market and, most importantly, what they will need to prepare for in the future. Consultiv experts will also give an insight into practical next steps for businesses of varying sizes and energy consumption, as well as an opportunity for company representatives to ask questions that will help them to navigate the coming months and years. If you are looking for an honest assessment of what energy bills will look like beyond 2023 and how the market may evolve, consultiv can help.
