

Introducing Portable Space

Cabin & Container hire | Sales | Conversions | Modular

At Portable Space we offer affordable and reliable portable accommodation, storage, and transport solutions to help you build a better business or personal space. Whether you're looking for a secure storage unit, home office or shed for your garden, a mobile or static welfare unit, toilet, or shower facilities for your site, flexible and convenient flatpack containers for those trickier to access places, container conversions to meet your wildest dreams, bespoke or standard cabins fit for purpose, or simply the blank canvas of a shipping container available in a variety of sizes and prices to suit everyone – we have a solution for all!

Established in 2002 our vision has been to save customers time and money by being the most reliable supplier of quality portable accommodation, storage, and welfare solutions in our markets. We are knowledgeable, innovative, and driven by customer satisfaction and excellence. We also know how important it is to respond in 'real-time' to customer needs and that's why we house the majority of our stock at our Suffolk headquarters. By doing so, we can ensure all products are inspected before dispatch and delivered to you by our very own drivers to guarantee a seamless all-round service.

For those preferring a more personal approach, by appointment, we offer you the opportunity to

visit us at our HQ to view our stock and to discuss your specific requirements with our highly-knowledgeable and experienced sales team.

We thrive on building relationships with new and existing customers and suppliers and believe that by investing in our own people gives us a head start in creating an exceptional personal service time and time again.

Selling throughout the UK, hiring across England and delivering containers and container conversions all over the world, we have our own fleet of 14 purpose-built delivery vehicles, operated by trained in-house, skilled, and certified drivers. All our vehicles are fully compliant, and all staff are more than happy to discuss your site access.

OUR PRODUCTS

FLAT PACK CONTAINERS

Our galvanized and powder-coated flatpack containers are incredibly durable and ideal for a wide range of storage purposes. They're a secure alternative to garden sheds for homeowners, schools, sports clubs, construction sites, and businesses with limited access. We offer kiosk, office, and cabin styles and the containers can be linked together for larger spaces.

PORTABLE TOILET & SHOWERS

Portable toilets and showers are a great solution for temporary or mobile restroom facilities. They are perfect for outdoor events, construction sites, and other locations where traditional restrooms are not available or practical. Portable toilets and showers are convenient, easy to use, and require minimal maintenance. We offer a variety of sizes and can customize the look of your toilet to suit your preferences.

20FT CONTAINERS

Our 20ft one-trip containers are the most popular shipping containers that we offer. We hold plentiful stocks ready for immediate dispatch of both used and new. Available in alternative sizes of 8ft, 10ft, 30ft, and 40ft with a variety of options including high cube, open-sided and tunnel containers.

STEEL CABIN & ACCOMMODATION

These units can be stacked with any steel canteen or drying room of the same size, either as a top or bottom unit, or on top of any stackable steel storage container. For city centre locations, the units can be triple stacked, but access to each level would require a specialist scaffolding contractor. Optional furniture hire is also available.

MOBILE UNITS

We offer secure steel-wheeled mobile cabins for welfare facilities on the move or sites with limited access. Standard units need mains electric or a separate generator. We also provide Groundhog mobile welfare units with a chemical toilet and generator for heating and lighting, suitable for road tow.

WHAT OUR CLIENTS SAY ABOUT US...

"The installation of our flatpack container from Portable Space has been invaluable in improving our outside dining"

THE KINGS ARMS, HAUGHLEY

"The service we have received has been first class, from initial contact right through the design and build process."

STOWMARKET FOOTBALL CLUB

"The Portable Space flat pack range is a truly superb product that can be installed quickly and offers great flexibility and customisation."

COFFEE CLUB BRISTOL

"At a time of crisis and massive disruption, Portable Space were incredible in their engagement, support, and flexibility to help the school find the solution"

FARLINGAYE HIGH SCHOOL

"We have been trading with Portable Space for now over fifteen years, being one of their earliest trading partners"

BARNES CONSTRUCTION

"As soon as I met a couple of members of the team, I felt totally confident that this was a quality product from a knowledgeable company."
