Taralay Impression **hop**:

The easy solution for **new-builds** or **renovation projects**

... the answer to all your needs

A collection that serves its users

PROTECSOL®2, THE STAIN GUARD

- Reduces cleaning time & saves money
- Uses less water and fewer cleaning products (detergent etc.)
- Resistant to chemicals

Its water-repellent effect prevents products that stain from penetrating.

Stains get ingrained in all other floor covering products on the market.

Stain test

Marker pen / Eosin / Betadine

Results after cleaning

Using a neutral detergent	Taralay Impression	Printed flooring/ Transparent wear layer	Homogeneous flooring/ single-layer
After 10 mins			
After 1 hr

2 technical solutions

Taralay Impression – Glue-down installation

Enhanced durability to withstand heavy traffic usage

Over 20 million m² of flooring have been installed since the 1st generation of Taralay Impression. Brand new designs and colours with all the usual long-standing benefits: sustainable, easy to clean and available in a wide range of designs.

- 1 Protocols² extra-matt surface treatment
- 2 Transparent wear layer
- 3 Design
- 4 Fibreglass
- 5 Compact interlayer
- 6 High density foam (acoustic version)

Available in a compact 8 dB or an acoustic 19 dB version

Taralay Impression **hop** – Looselay

NEW

EXCLUSIVE PRODUCT CONSTRUCTION, ESPECIALLY DEVELOPED FOR LOOSELAY INSTALLATION!

A stable and expansion-resistant looselay flooring

The **double** fibreglass + glass laid scrim reinforcement ensures excellent product maintenance. The looselay layer that is made of **recycled materials** combined with a **technical underlay** improves the product's adhesion to the floor.

- 1 Protocols²extra-matt surface treatment
- 2 Transparent wear layer
- 3 Design
- 4 Fibreglass
- 5 Compact interlayer
- 6 Glass fiber grid
- 7 Calendered layer with recycled content
- 8 Technical underlay
- 9 High density foam (acoustic version)
- 10 **hop** holding tape

Available in a compact 8 dB or an acoustic 19 dB version

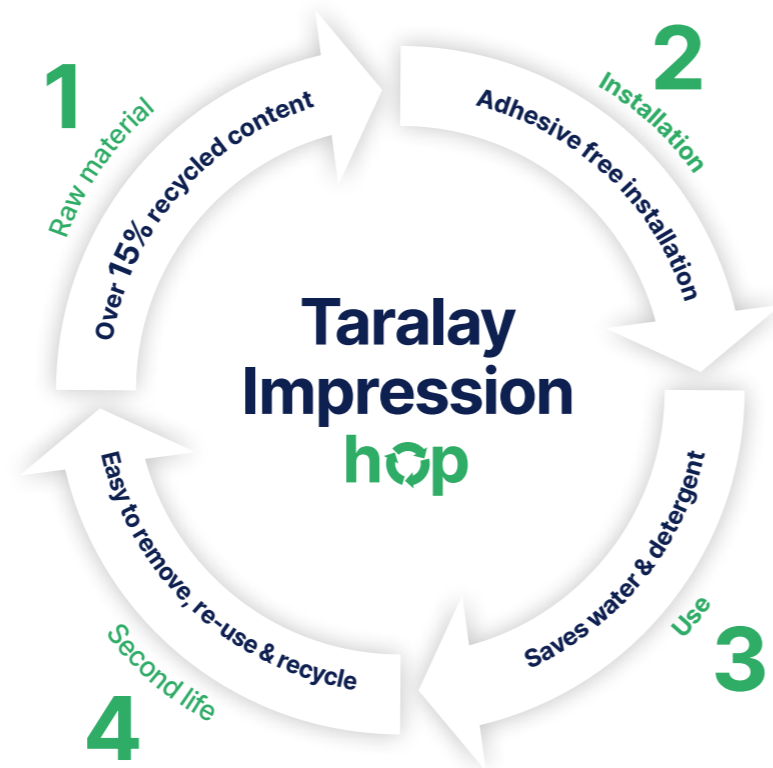

Levelling complex calendered layer + technical underlay = **looselay**

Double reinforcement fibreglass + glass fiber grid = **reinforced stability**

Eco-design valued at each stage of the life cycle

GERFLOR IS COMMITTED

to communicating transparently about the carbon impact of its products and focusing on eco-design, including the use of sustainable raw materials, the sustainability of its products and circular economy

The 4 stages of the life cycle

1 – Raw materials

+ 15% Recycled content

✓ Phthalate-free*

✓ REACH REACH compliant

*Excluding recycled content

2 – Installation made easy in busy environments

Place the HOP holding tape where the rolls join
Code: 059E/Packaging: 50 ml/box

Reinforced holding tape:

- Durable
- Easy to position
- No transfer to surface underneath

Unroll

Adhesive free: less disruption (smell, noise, dust) and fewer risks of quality issues

Ready to walk on straight away

Can be walked on immediately

In a renovation project **the preparation time is reduced** or unnecessary

2 – Optimised installation means more projects finished faster

Eco-design valued at each stage of the life cycle

3 – Use Long-lasting performance

Protacosol®2
Protacosol²: stain resistant water-repellent surface saves water and detergent

Withstands wheeling heavy loads (straight or circular) up to 500 kg

Excellent resistance to indentation – 0.03 mm (compact)/ 0.08 mm (acoustic)

Excellent stability, even during temperature changes: expansion < 0.03%

Improved resistance to moisture

TVOC < 10 micrograms/m³

4 – A second life made easier

-50%
Removal time reduced by 50% in renovations, without damaging the surface underneath

Uninstall and reuse:
• Flooring can be uninstalled without damaging either the product or the surface underneath
• Flooring can be re-used for another building

Easy to recycle
• Qualifies for the **Second Life Programme**.
• Flooring is incorporated back into our production lines

FLOOR TO FLOOR
A unique partnership with Paprec, recycling programmes that are certified by Eucertplast

FABRIQUÉ ET RECYCLÉ EN FRANCE

Accelerating recycling is essential for building a more circular economy. Preserving resources and reducing the carbon footprint of our business are our commitments for Sustainable Development.

Biophilia
Inspired by nature

The original palette

WOOD

ENHANCED PERSPECTIVES

Added structure and textured effects with increased warmth make humans feel at one in their living areas with our new WOOD interpretations.

FABRIC EFFECT

The warmth and comfort of a design inspired by woven natural fibres in unassuming colours is a perfect match for soft and subtle vintage environments.

ATMOSPHERE

MINERALS

They are stylish and slightly retro: a play on harmony between neutral and colourful tones, shards of marble and polychrome shades... A pluralistic and radiant minerality.

NATURE

INSPIRED GRAPHICS

Nature is the intended choice of inspiration for these designs: gossamer leaves lifted up by the wind, lush tropical forests and delicate Nido patterns. All in all, a new verse in Mother Nature's song.

Our customer feedback speaks volumes

'**Taralay Impression is a high quality product** that is very easy to maintain; The range we chose gave us the hotel style we were looking for.'

Belley Hospital

'The product was installed over 10 years ago. **The floor covering withstands traffic really well.** On top of that, just plain water gives a perfect clean.'

Rochefort Hospital

'**I really liked the collection, in terms of aesthetics,** and everybody else likes it. Also, the flooring is easy to clean and is stain-resistant.'

City of Mulhouse

'It's **easy to wheel around heavy loads** on Taralay Impression. It is also extremely hard wearing.'

Mulhouse & South Alsace Region Hospital Group

Gerflor products help you to age well

These days, ageing well is a social challenge. In this context, supporting people who have dementia is the focus of numerous discussions.

What is dementia? Dementia is a syndrome that occurs in numerous neurological diseases (one of the most well-known being Alzheimer's disease), caused by progressive degeneration of certain neurons. These pathologies affect the memory, thoughts, behaviour and the ability to perform daily activities.

Gerflor is committed to helping towards ageing comfortably by developing designs and colours to suit these medical conditions.

BELOW ARE SOME KEY POINTS FOR CHOOSING A SUITABLE FLOORING:

Contrasting colours

Sections of the same area (floors, walls, accessories) must be in contrasting colours in order to improve the three-dimensional perception of the different spaces and thus encourage movement. It is also important to take into account the light reflectance value (LRV*) of the different sections.

> **All the LRVs in Gerflor ranges are available on our website and our communication tools.**

'Soft' and almost plain patterns

Heavily patterned flooring or flooring with busy patterns should be avoided, as well as the colour black, which could lead to blocking reactions due to visual barriers. We therefore recommend choosing soft patterns.

> **Many designs and colours in Gerflor's ranges have semi-plain or almost plain patterns that are perfectly suitable.**

Matt flooring

In addition to the more realistic look, matt flooring is perceived as more secure. In fact, shiny floors can look wet, making people with dementia hesitant and increase the risk of falling.

> **The latest-generation surface treatments developed by Gerflor (Protocolsol® 2, Evercare™ in particular) give the products a matt appearance.**

Acoustic comfort

You should opt for acoustic products that will reduce ambient noise and create a more calm and peaceful environment.

> **Many of the Gerflor collections provide sound insulation. For example, Taralay Impression offers 19 dB (acoustic version) and 8 dB (compact version) sound insulation products.**

Accredited products

Gerflor wanted to have its products (notably Taralay Impression) validated and accredited by the DSDC, **Dementia Services Development Centre.**

This organisation is an independent and internationally recognised centre of knowledge and expertise dedicated to improving the lives of people with dementia.

Product description and technical data sheets on gerflor.com

Installation and Maintenance Guidelines, Complementary ranges available on our Gerflor website.

 Rubber leaves indelible stains on vinyl floorings: do not use mats with rubber backing and replace tubular furniture feet with those made of PVC or polyamide. Place mats of sufficient length at entrances to reduce outside sources of dirt.
