RightWay Pro

Public Access Systems

About the System

Modular

Temporary or semi-permanent ramps that can be added to or reconfigured into entirely different ramps.

Fast

Complete ramps can be built in as little as a couple of hours.

Cost effective

As well as being quick to build, no expensive groundworks are required.

Free standing

In most cases ramps can stand on their own feet, and enlarged feet or slabs can be used for soft ground.

Adjustable

Ramp legs can be individually adjusted for uneven ground surfaces.

Customisable

A variety of colours and frame sizes to suit individual requirements.

Compliance

- + DDA
- + BS 8300

Building Regulations

- + Document M (Vol. 2)
- + Document K

Perfect for

- + Cabins
- + Modular buildings
- + Schools
- + Hospitals
- + Marquees
- + Warehouses
- + Supermarkets
- + Shops

The ramp you want...

Ramp with steps

Platform

...with just a bolt driver and simple hand tools

Our Services

Survey

If required our professional surveyor can visit the site and carry out a survey to help you determine the feasibility and layout of a ramp or steps, usually free of charge!

Design

We can then provide you with layout drawings and 3D renders, designed to meet your specific needs and budget. We can also advise you on rules and regulations for different ramps.

Installation

Our engineers can supply and install ramps anywhere on the UK mainland. Our professionally trained installation engineers are CSCS qualified.

Removal

We can quickly remove your ramp when you no longer need it, usually free of charge.

Infill

Enquire about our infilling service for aesthetic and under-ramp weather and tamper protection.

About PARS

Our company has over 25 years' experience in the ramp industry covering the whole of the UK. With our own survey, design and quotation specialists PARS are in full control right from the early stages of every contract.

We also manufacture and install residential ramps for many UK councils including London, Wales and Scotland as well as local councils in East Anglia.

Our company is trusted by a full compliment of accreditation schemes as shown, meaning you can be assured we can provide the exacting standard you expect.

With a variety of products including two modular ramp systems for public access and residential settings, steps/gates, modular decking and door wedges, we are sure to have the solution to your access requirements.
